- At a meeting of the Anti-Fascist Bloc in early November Pieck and the SED made the following proposals:

25X1

- The introduction of "Volkskontrolle" as a checkup on management and labor to carry out Sokolovski's Order #234 on increased productivity.
- The introduction of a system in the Soviet Zone which would be modeled on the Stakhanov System, including teams assigned to establish production norm and deficiencies.

- Both suggestions were opposed by the CDU and the LDP. Nevertheless, the SED in Brandenburg called a meeting several days later to organize "Volkskontrolle" committees and to activate the plan already drawn up by the SED. The committees are to be "responsible only to the people" as represented by political parties and organizations.
